Re: Rocky Reach Hydroelectric Project No. 2145
License Article 401 – Aquatic Invasive Species Monitoring and Control Annual Report

Mr. McKinney and Ms. Irle:

As per Section 5.6(2) of the Water Quality Certification, within one year of the effective date of the New License Chelan PUD was required to develop, in consultation with the Rocky Reach Fish Forum (RRFF), an Aquatic Invasive Species (AIS) Monitoring and Control Plan for the Rocky Reach Project. Chelan PUD submitted the completed AIS Plan to FERC on February 19, 2010 for approval, and received approval on January 11, 2011.

Section 5.6(2)(c) further requires Chelan PUD to submit to

Ecology an annual report of monitoring an educational activities conducted during the previous year for aquatic invasive species. Because FERC approval had not yet been received, Chelan PUD did not begin implementation of the AIS Plan in 2010. Therefore, no report will be submitted in 2011.

Chelan PUD will begin implementation of the actions included in the AIS Plan this year and will report on the monitoring and educational activities by February 19, 2012.

If you have any questions, please do not hesitate to contact me.

Thank you,
Waikele Hampton
