NOTE:

The conditions of water availability stated within this form expire within one year of the water system personnel's signature date. A new water availability form shall be resubmitted after this date to confirm water availability.

This checklist was prepared to help applicants comply with the requirements of RCW 19.27.097, concerning the adequacy or inadequacy of the local water system's ability to serve the referenced property. The information provided is intended to summarize the water system's capacity and the required improvements, if any are needed to provide water service.

THIS FORM IS FOR WATER REVIEW ONLY
