Water Temperature Data Reports: 2014 Quarter 2

Dear Ecology Water Quality Program, Chelan River Fishery Forum and Other Parties:

Water temperature monitoring data for the 2nd quarter 2014 (April - June) will not be available until mid August due to spill flows that have prevented access to the temperature data loggers. Spill is expected to end soon and I plan to retrieve the data loggers and prepare the reports when I return from vacation the week of August 11.

Please feel free to call or email any questions or comments.
