Jeff and Travis, we shipped 106k cutthroat to Eastbank this year, So we are shooting for full program, We will keep 50k trip rb's as backup (unless you decide otherwise) 80% cutts were ad clipped this year. Triploid Chinook should be hit and miss of the 50k, so it looks good. 1,000 trip RB's @ .5 fpp . Kokanee should be in the neighbor hood of 70K for planting

Jeff

Here is what I have come up with so far for planned fish stocking in 2015 (at least for the tributaries) ...I left the highlighted areas for Cory to fill in since this will depend on what he currently has on hand and what he estimates will be on hand at the time of stocking.

Also...here is the draft budgets and work plans for Kokanee Creel and Trib Pop Est. work for 2015.

See you in about an hour

Travis.

Subject: Lake Chelan Fishery Forum meeting - 2015 Annual Work Plan development

Dear Lake Chelan Fishery Forum: The date available to most everyone for our next Forum meeting to begin developing the 2015 Annual Work Plan is Thursday, November 20, 2014. We will be meeting in the Engineering Services Conference Room in the PUD Headquarters Building beginning

at 10:00 am. Please see attached agenda and copy of the 2014 Annual Work Plan. Please bring any monitoring and evaluation results that you wish to present to the Forum, and project descriptions and budgets for inclusion in the 2015 Work Plan. The rotating scribe duties fall to the Forest Service this year. However, I understand that this may be problematic, due to lack of Forest Service staff, so I have a call in to Kari to determine how best to handle the drafting responsibilities.

Cory: Will you please send me information as to the actual numbers of fish stocked into Lake Chelan in 2014 and the proposed numbers for stocking in 2015 to include in Section 3.1 Fish Stocking of the 2015 plan? Much appreciated.

As always, please feel free to contact me if you have any questions or suggestion. See you on the 20th!

Jeff
