**Subject:** Request for time-extension to complete Final Draft of the Rocky Reach Biological Objectives 5-year Status Report  
**Date:** Friday, March 28, 2014 4:36:35 PM  
**Importance:** High

---

Hello RRFFF:

Chelan PUD is seeking the Forum's approval for a time extension -**15 April** - to complete the Final Draft of **Rocky Reach 5-Year Biological Objectives Status Report**. The Final Report is due to RRFF on **March 30**, per the Rocky Reach License Water Quality Certification, Appendix A.

The RRFF provided a large number of useful comments on the report. I have been incorporating those comments and preparing a comment-response table to include with the Report. We would greatly appreciate this extra time to provide respond and add the information requested, and finish a quality Final report for the Forum. I spoke with Pat Irle at Ecology on the **15 April** extension and she approved.

I propose that if you also concur with the time extension for this report, that you do not need to respond. But, If you are not ok with this, please respond back or give me call and let me know.

Thank you very much.

Steve
