Re: DRAFT Rocky Reach TDG Alternatives Analysis

Ms. Zimmerman:

Attached for your review and comment is the DRAFT Rocky Reach Total Dissolved Gas Alternatives Analysis. This report is step two in a series of FERC/401 requirements. The first was a Year Five report regarding our compliance with the Total Dissolved Gas (TDG) numeric criteria at

the Project. If we were not 100% compliant with the water quality numeric criteria, Chelan PUD would then prepare a report that evaluates what measures (operational and structural) may be reasonable and feasible to implement to further reduce TDG production at the Project. Chelan PUD will submit these reports to Ecology, members of the RRF, and members of the HCP Coordinating Committee.

Please review the attached document and submit any comments you may have on or before 5:00 p.m. April 1, 2017 via email at marcie.clement@chelanpud.org.

If you have any questions, please do not hesitate to contact me.

Thank you,

Marcie Clement | **Water Resources Specialist**
