Subject: Spiranthes (Ute ladies' tresses) 2013 annual monitoring report

Hard copies of the 2013 annual report for *Spiranthes* (Ute ladies' tresses), including a summary of invasive plant control measures and the 5-year Survey summary effort, were placed in the mail earlier this week (12/9). The reports were sent to the following agency representatives for the Ute Ladies Tresses Subcommittee of the Rocky Reach Wildlife Forum:

BLM—Molly Boyter
WDFW—Ron Fox
DNR NHP—Joe Arnett
USFWS—Steve Lewis
USFS—Brigitte Ranne

Attached is the document for your recordkeeping purposes. Some of the graphics for the charts disappear when converted into .pdf, so I have attached it in Word format only.

Please let Von or myself know if you have any questions.

Thank you.
