Rosana,

Attached is the 2013 RRWF invoice for 2013 weed control work and the summary of the work completed in 2013. This Invoice and summary document is my annual report to the RRWF for work completed in 2013.

Thanks,

Von

Dear RRWF members,

Attached is the agenda for our meeting on October 1, 2013 from 9 am – 12 pm here at Chelan PUD. The meeting will be in the second floor conference room adjacent to the main lobby. Please sign in at the main lobby by 9 am and we will escort you to the conference room.

Please look over the agenda and the attached invoice for 2013 work completed for the RRWF and let me know if you have any questions or topics that should be added. I look forward to seeing you all in few weeks. Don't forget to bring proposals for weed control work in 2014 consistent with the Rocky Reach Wildlife Forum Integrated Terrestrial Invasive Plant Control Plan.

Sincerely,

Von

Subject: RRWF meeting October 1 2013, Chelan PUD 9am - noon

Dear Rocky Reach Wildlife Forum Members,

The next Rocky Reach Wildlife Forum (RRWF) meeting is scheduled for October 1, 2013 from 9 am to noon at Chelan PUD. Dale Whaley will attend the meeting from the WSU extension to provide a summary of the biological control work completed the last two years and answer questions you may have regarding the use of biological controls.

The 2013 weed control project approved by the RRWF was completed in late August this year. I have attached a draft invoice for your review. At the meeting I will have a signed variance form and the Members will be asked to approve payment from the RRWF weed control funds for the work completed in 2013.

<< File: 2013_RRWF_Invoice and summary.pdf >>

Please bring proposals for continued weed management in 2014 to the meeting. The RRWF weed project budget for 2014 will be approximately \$11,800 for proposals approved by the group for weed management on public lands within the Rocky Reach Wildlife Area in 2014

I'll get an agenda out next week. Meanwhile, please look over the invoice and let me know if you have any questions.

Sincerely,

Von

Von Pope

Report for: ☐ 1st ☒ 2nd ☒ 3rd 4th Quarter of Calendar Year: 2013

Description of Project Work/Progress for this Quarter (include Task Number):

Year 2013: As requested by the Rocky Reach Wildlife Forum, Chelan PUD distributed 12,100 biological control insects diffuse knapweed on public lands between the Entiat River and (Attachment B) within the Rocky Reach Wildlife Area. Work was conducted by subcontractors as evidenced by the attached invoices.

Reimbursement Total Requested: **TOTAL: \$14,197.00**

- ☐ No expenditures/request for reimbursement this quarter.
☐ Administrative charges only.

Project Work Plans and Estimated Expenditures for the next quarter (include Task Number):

For 2014, the Rocky Reach Wildlife Forum has up to \$11,803 for continued implementation of the Rocky Reach Integrated Terrestrial Invasive Plant Species Plan.

Variances from Plan (if any, describe when work will be conducted, by Task Number):

Work for 2014 should be proposed by late 2013 for consideration in the first quarter of 2013.

The costs and scope of work described herein are true, accurate, and in compliance with the Rocky Reach Settlement Agreement:

CHELAN CO. PUD BIOLOGICAL WEED CONTROL PROJECT REPORT

Table 1. Progress Report

<p>PROJECT NAME: CHELAN CO. PUD BIOLOGICAL WEED CONTROL PROJECT</p> <p>Project Manager: Dale Whaley</p> <p>Report Date: September 3, 2013</p>
<p>Project Start Date: 6/24/2013</p> <p>Original Planned Completion: August 2013</p>
<p>Project Summary Information</p> <ul style="list-style-type: none"> Multiple locations within the Rocky Reach Wildlife Area (RRWA) between the Entiat River and Lake Chelan on the Chelan County side of Rocky Reach Reservoir were identified from this project that could benefit from biological control insects. A total of 12,000 <i>Larinus minutus</i> (seed head feeder) and 100 <i>Cyphocleonus achates</i> (root weevil) both for Diffuse knapweed were released at various locations on State and/or Federal land within the defined project area. Total number of biological control insects released; 12,100. GPS points and additional data were collected for each individual release. Wood stakes were used to mark release sites. Digital photos were taken of each release. While completing this project, two separate Houndstongue infestations were discovered (NF-5305 Rd and Oklahoma Gulch Rd.) on State land. I went ahead and notified Bridgett Ranee with the USFS to keep an eye out for Houndstongue on their nearby property.
<p>2013 Project Budget: (see attached Invoice).</p>
