

CYCLE OF PERSONAL OWNERSHIP

APRIL 2019 **WINNER**

CHELAN COUNTY

EVIN BUSEY

Evin Busey is a Journeyman Wireman on the Substation Crew, he demonstrates all the district values on a daily basis and we have all become used to his high level of performance. I would like to focus on his Operational Excellence and Stewardship. Evin has recently made a few suggestions on upgrading how we collect data when sub inspecting. When making suggestions he does research looks up the information, gets options, finds suppliers, gets a general idea of the cost and presents the package to the crew for opinions and the Superintendent for approval. I have witnessed him do this consistently for as long as he has worked here. We have safety practices, equipment and systems in place all because Evin saw a need or a more efficient way of doing our jobs. Operational excellence by proactively committing to continuous improvement and Stewardship by his ability to communicate effectively. He manages to do all of the above while still being extremely productive on the crew.
