Subject: Crypto currency miner requesting consideration

Dear PUD Commissioner,

I am a cryptocurrency miner in the City of Wenatchee. My business is small involving only a 200 amp panel for the mining. My business plan includes following the rules and paying the Schedule 35 rates. I feel that the Chelan County PUD would be acting in bad faith raising the rates beyond the 2017 Schedule 35 rates.

The money I earn from mining is spent locally. I paid \$10,000 to the Chelan County PUD for my HDL upgrade, \$10,000 to Wenatchee Electric for the electrical panel, \$7,000 to Arctic Air for cooling and \$3,000 to Sherrman Construction for a room in the garage for the equipment. I also purchased a horse that I board and train locally. This is all good local spending and the creation of a part time job for me.

I think the PUD should encourage businesses that spend locally.

I hope you will reconsider pricing me out of business.

Becky
