# Home Improvement Incentives

Chelan County PUD offers incentives to customers for energy efficiency improvements. Offers apply to owners of existing, site-built single-family and multi-family homes (up to 10 units) and manufactured homes situated in Chelan County and using permanently installed electric heat. Eligible households include those using electric heat pumps, furnaces, baseboard, wall or radiant heat. Plug-in type space heaters do not qualify. New construction is not eligible. Request for incentive must be submitted within 6 months of job completion. Incentives apply to conditioned living space (no garages). Payment is by check mailed to the customer. **Allow 6 to 8 weeks for processing.**

## INSULATION

An incentive of 50 cents per square foot is available for the addition of new insulation (both fitted/batt type and blown-in). Insulation must be installed only where the insulation separates heated from unheated areas of the residence. (For example, the attic over an unheated garage would not be eligible.) A copy of the insulation certificate must be submitted with contractor's invoice and this incentives application.

Insulation incentives are available as follows:

- **Existing attic insulation** must be R19 or less. Customers must add insulation to achieve R38 or greater.

- **For walls**, there can be no existing insulation. Added wall insulation must achieve R11 or greater.
- **For floors**, there can be no existing insulation. Added floor insulation must achieve R19 or greater.

• **Customers doing the work themselves are required to take photos before and after adding insulation (where feasible), with the photos showing a ruler gauging the before- and after-depth of the insulation. These photos must be included with the rebate application.**

## TO SUBMIT AN APPLICATION

1. **Fill out each section below that applies. Include required documentation. (Note: Square footage, the R-factor ratings and cost must be itemized on the included invoice(s) in addition to being listed on this form.)**
2. **Attach itemized invoice(s) and a copy of your contractor's insulation certificate, or, for do-it-yourself installation, before- and after- photos of the project.**
