Goals:
• Upgrading existing electrical facilities
• Reduce restoration time during power outages
• Increase reliability of electrical service to Antoine Creek Customers

Scope:
Chelan County PUD is planning a construction project to build approximately 2,700 feet of overhead power in the upper Antoine Creek area. This overhead power line includes installation of (10) poles from milepost 4.6 to 5.3 along Antoine Creek Rd. The project replaces aged underground cable serving the Antoine Creek area.

Schedule:
Second & third weeks of June

Special Conditions:
• Periodic lane closure and flagging operations.
• Planned power outages are anticipated during equipment cutover.
• Large excavation equipment and power tools will be used on this project.
