Project fact sheet
Fontanelle Underground Cable Replacement

What this project is:
Project includes, directional boring, trenching and installation of underground electrical conduit and cable in the area of the Fontanelle Condominiums in Wenatchee.
Phase I: includes excavation, conduit installation, vault placement and road restoration.
Phase II: includes installation of cable and equipment and energizing of the new electrical system.

What are the benefits:
• Replace and upgrade existing underground electrical facilities
• Reduce restoration time during power outages
• Increase reliability of electrical service to the neighborhood and the affected customers

Project schedules:
Work will begin the week of June 17
Work is expected to be completed in early July
Working hours are generally from 7:30 AM to 3:30 PM
Work days are Monday through Friday

Things to keep in mind:
• Periodic lane closure are expected where through traffic and parking may be temporarily diverted
• Scheduled power outages are anticipated during equipment replacement and cable installation
• Excavation equipment and power tools will be used on this project
• Sub contractors by the names of Trenchless Inc. and M.O.E. Asphalt will be performing some work for the PUD
