Additional Discussion Items and/or Comments (*group*)

Meeting Wrap-up, Review of Action Items (*Gregg Carrington*)

Additional Information

Handouts:

Rocky Reach Implementation Summary (*to be provided by email April 5*)

Meeting Notes

The meeting began at 10:05 and ended at 10:35.

- Gregg presented and the group discussed the primary focus and responsibilities of the policy group. The four items included:
 1. To resolve disputes and issues
 2. To ensure concise and consistent messages throughout each organization
 3. For information purposes (e.g., progress and work plans, what's working/what's not)
 4. For coordination
- Michelle Smith and Keith Truscott discussed the 2009 Progress Report and 2010 Implementation Work Plan. The license was issued by the FERC on Feb 19, 2009. Implementation of some resource measures are waiting for FERC approval of new management plans which were submitted in Jan/Feb of 2010. Although FERC review schedules are unknown, Chelan PUD anticipates FERC approval of those plans by early fall. Policy Group members stated the progress and work plan format was good for reviewing implementation activity information.
- Gregg stated that future meetings may be face to face (potentially including site visits) as license implementation progresses and as the number of activities and successes increase.
- These meeting minutes and handouts, as well as all licensing documents, are located on Chelan's Licensing Web Site at:
