

Annual Schedule

Whitewater Boating on the Chelan River

2009-2011

During the three-year whitewater boating monitoring study, Chelan PUD will release flows on the second and fourth weekends in July and September. Flows on Saturdays will be between 300 cfs and 375 cfs, and flows on Sundays will be between 400 cfs and 450 cfs. Chelan PUD will begin the ramping up of releases to meet these flows at 11:00 am and will begin ramping-down no sooner than 6:00 pm each day. Chelan PUD will not be obligated to provide whitewater boating flow releases in the Chelan River when the previous day's average Stehekin River inflow is less than 333 cfs, or when the Mid-Columbia Index is greater than \$150/MWh (\$2001) as adjusted pursuant to section 19.1 of the Settlement Agreement.

2009 *	2010	2011	Time	
July 11	July 10	July 9	11:00 am to 6:00 pm each day	
July 12	July 11	July 10		
July 25	July 24	July 23		
July 26	July 25	July 24	Flows	
	September 11	September 10		
	September 12	September 11	Saturdays: 300 to 375 cfs	
	September 25	September 24	Sundays: 400 to 450 cfs	
	September 26	September 25		

* There will be no runs in September, 2009
