

SETTING OUR CONSERVATION TARGETS

Public hearing

On Nov. 16, Chelan County PUD customers are invited to comment on the steps being taken to meet state and federal energy conservation requirements at a public hearing at 1 p.m., in the boardroom at 327 N. Wenatchee Ave.

Initiative 937 requires energy savings through conservation. The PUD is combining the process for setting two- and 10-year conservation targets under I-937 with consideration of two more standards required by the federal Public Utility Regulatory Policies Act (PURPA). Those standards are on integrated resource planning and rate design standards.

To learn more, or to comment, visit **www.chelanpud.org** and search for "Energy Independence Act" and/or "PURPA."
