

Join us for a workshop on **Building for a Cold Climate**

*A Systems Approach to Designing
and Building Trouble-Free Homes*

Thursday, Jan. 26, 2006

9 a.m. to 4 p.m.

Chelan County PUD Auditorium

327 N. Wenatchee Ave., Wenatchee

You'll learn how to:

- Reduce callbacks
- Improve customer satisfaction
- Design and build homes for today's buyer that are healthy, comfortable, durable, energy- efficient and environmentally responsible

Presented by David Hales

Building Systems and Energy Specialist

Washington State University

In this down-to-earth presentation, David Hales discusses how to stop problems before they start. Hales, a retired builder, is frequently called upon to troubleshoot perplexing construction issues. As a building science specialist, he travels throughout the Northwest sharing his expertise with builders, developers and homeowners.

Local builders may remember Hales from his last presentation in Wenatchee, "Cure for the Common Callback."

The workshop is free. Energy Star Homes Northwest builders field guides will be provided free of charge. Other materials may be available at cost.

To register, call Chelan County PUD at 661-8008 or email susang@chelanpud.org or carla@chelanpud.org.
