Recreation and Land Management Working Group Members:

Please note that comments were received and incorporated into the Recreation Inventory and Land Management Study Plans. Consultants will be selected during February and fieldwork is expected to begin as per the study plan schedule. Please let me know if anyone in the recreation or land management working group feels we need to meet before fieldwork begins. We can anticipate a fieldwork update about mid-April. Updates to the process and other resource groups will occur through the monthly full-group meetings.

Thank you. Michelle Smith
