

ROCKY REACH HYDROELECTRIC PROJECT
SOCIAL SCIENCE RESOURCES

OUTLINE FOR PDEA

5.3.5 Recreation Resources

a. Affected environment

General description of the recreational resources

Regional recreation opportunities

Regional recreation comprehensive plan (SCORP)

Recreation resources within the Rocky Reach Hydroelectric Project area

- Map figure and table of recreation facilities

Existing Recreation Plan

Recreation use in the Project area

Recreation activities and visitor demographics

Distribution of recreation use

Watercraft use

Dispersed shoreline use

Estimated use versus estimated physical capacity

Visitor satisfaction

b. Environmental impacts and recommendations

Management and operation of existing recreation facilities

Existing recreation facility improvements

Proposed recreation enhancements

Recreation Resources Management Plan (RRMP)

O&M and improvements at PUD parks

Entiat Community Waterfront Plan and Implementation

- Conceptual drawing (figure)
- Entiatqua Outdoor Learning Center
- Columbia Fire Breaks Interpretive Center

Managed access and trails on WDFW-owned mitigation lands

- Map figure of WDFW lands and managed access concepts

Community recreation fund

Recreation advisory committee – monitoring and evaluation

Other alternatives considered by the Social Sciences Working Group

Our (FERC) analysis

c. Unavoidable adverse impacts:

5.3.6 Socioeconomic resources

a. Affected environment

General description of the socioeconomic resources

Introduction

Population trends and forecasts

Project area economic conditions

Tourism

b. Environmental impacts and recommendations

c. Unavoidable adverse impacts:

5.3.7 Aesthetic resources

a. Affected environment

General description of the aesthetic resources

Aesthetic character of lands and waters

Aesthetics and Project facilities

Aesthetics and shoreline erosion

Maps, drawings, photographs

b. Environmental impacts and recommendations

c. Unavoidable adverse impacts:

5.3.8 Land use

a. Affected environment

General description of the existing uses of Project lands

Description of project land uses

Public and specially designated lands

Identification of Wetlands, floodlands, federal lands

Shoreline development tracking system

b. Environmental impacts and recommendations

c. Unavoidable adverse impacts:
