Wenatchee, WA 98807-1231

Subject: Lake Chelan Riverwalk Loop Trail Contract Plans and Specifications

Dear Ms. Smith:

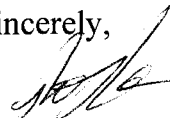

This is to acknowledge your January 29, 2009 letter transmitting the Control Plans and Specifications (P&S), Quality Control and Inspection Program (QCIP), Soil Erosion and Sediment Control Plan (SESCP) and Temporary Construction Emergency Action Plan (TCEAP) for the Chelan Riverwalk Loop Trail Extension Plans for the Chelan Hydroelectric Project, FERC No. 637. As noted, there are no structural changes to the Lake Chelan Project, either at the dam or the powerhouse.

Our review of the information noted no areas of concern. Therefore you are authorized to begin construction. You are reminded that prior to start of work, all necessary preconstruction license article requirements must be met. In addition, all of the necessary state, local and federal permits that are required must be secured.

Two copies each of the submitted documents listed above and your transmittal letter have been forwarded to our Washington office.

If you have any questions, please contact Mr. Adan Archuleta of this office at (503) 552-2717.

Sincerely,

Patrick J. Regan, P.E.
Regional Engineer
