Dear Ecology Water Quality Program, Chelan River Fishery Forum and  
Other Parties:

Water temperature monitoring data for the 4th quarter 2016 (October -  
December) are provided in the attached files. Please note that only  
data from the automated monitoring at the Low Level Outlet and in the  
tailrace are complete. Data from the temperature loggers will be  
reported when they can be retrieved from the monitoring sites after  
the snow and ice melts. This information will be posted to the Lake  
Chelan Implementation web page under resource documents.

Please feel free to call or email any questions or comments.
