

Annual Fees & Charges Update

Cathy Melton
Customer Service Program Analyst

June 16, 2025

Why we're here

- Review staff's Annual Fees & Charges recommendations
- Preview implementation plan

No board action required

Resolution 07-13163 delegated authority to General Manager to adjust or introduce new fees and charges without action of the Board

Fees & Charges Recent History

2023

- Focus: Electric Service Connection Fees
- Actions:
 - Revised cost methodologies to recover installation costs for new services
 - Adjusted fees to reflect ~20% cost increases
 - Developed improved implementation plan

2024

- Focus: Regulatory Fees & Charges
- Actions:
 - Revised cost methodologies to recover costs
 - Adjustments included ~10-20% cost increases
 - Continued improvement of implementation plans

2025 Review

2025

- Focus: Comprehensive review leveraging previously refreshed methodologies to recover installation costs for new services and billing functions
- Next steps:
 - Apply methodology framework across all fee types
 - Launch review of System Impact Fees implemented in 2021
 - Develop strategy to address future adjustments and review intervals

Electric Service Connection Fees

- Applies to new or expanded service connections
- Based on average costs of transformer, meter, labor, and system impact fee
- Typical residential impact ~\$200/connection
- Typical commercial impact ~\$700/connection

See appendix for all adjustments

Other Electric Service Charges

- Applies to new pole and PUD-installed traffic rate handhole installs
- Reflects ~20% rise in material and labor costs
- No change to wire fees

See appendix for all adjustments

Net Metering Fees

- Align references with May 2025 policy updates
 - Eliminate SNAP application fees
 - Raise net metering cap to 100kW
- Combine Net Meter/Distributed Generation(DG) Three Phase >25kW application fee
- Eliminate Net Meter Fee

Water Fees & Charges

Water Meter Fees:

- Applicable to new or increasing domestic water connections
- Includes average meter and installation labor costs
 - Typical 1 ½" & 2" meter impact ~\$200/connection

See appendix for all adjustments

Customer Service Fees & Charges

- Applicable to account setup for new customers, transfers of service, disconnects and reconnects
- Continuation of adjustments implemented January 1, 2025

See appendix for all adjustments

Implementation & Outreach Plan

- Recommended implementation date: January 1, 2026
- Engage internal stakeholders
- Update website content
- Conduct enhanced outreach on construction-related charges
- Notify builders and contractors via postcard
- Mail notices to customers with pending applications or projects
