

Beebe Bridge Campground Update

October 7, 2024

CHELAN COUNTY

Ryan Baker
Parks Manager

Justin Erickson
Chief Strategy & Stakeholder Officer

Where We Left Off

- Progressing discussions regarding Beebe Bridge Campground's future operations as a State Park.
- Continuing efforts to improve operational efficiency and elevate the user experience.
- Maintaining a strong, valued partnership with State Parks.

Why We're Here

- Follow-up on August discussion: State Parks' operation of Beebe
- Update from WA State Parks Commission work session on Beebe
- No board action required today

Follow-Up Q&A

Can customer-owners still launch boats without a fee?

We anticipate implementing a Pilot Program with State Parks as soon as 2025 that will allow free launching at all District sites managed by State Parks.

Is it possible for customer-owners to have preference for camping reservations?

Technical, logistical and policy challenges prevent this option at present.

Will dump station access be enhanced?

State Parks anticipates expanded dump station access over the current situation under District management.

What is the timeline?

A longer transition period is now anticipated with the District managing the Park through the 2025 recreational season.

Next Steps

- Attend Washington State Parks and Recreation Commission work session on October 10
- Finalize outreach and communication plan
- Continue collaboration with Washington State Parks on agreement terms

Summary

- Discussions about Beebe Bridge Campground and future operations as a State Park are progressing
- Ongoing efforts to enhance operational efficiencies and provide the best user experience
- Strongly value our partnership with State Parks
- Return for a board update in early 2025

Questions and Discussion?
