## Radar Gap Project Update

- Climavision is looking at Chelan Butte for a weather radar location. Chelan County & Chelan County PUD have been very helpful coordinating this location.
- Also exploring an upper Badger Mountain location. Blockage study results are positive.

## Radar Gap Project Update

- A Federal appropriation request of \$12 million to allow National Weather Service to acquire commercially derived data has been submitted to our congressional delegation.
- Senator Cantwell has been working with Senator Cruz on bill report language formalizing National Weather use of commercially derived data.
- Thanks to Jason Detamore (Chelan County) for his work on this project.
