The Economic Recovery Dashboard is a visualization tool that uses an assortment of data sources to track Washington state's economic recovery and resiliency. It displays the latest available data on employment, businesses, government assistance programs, and consumer behavior, helping monitor the economic impact of COVID-19 across Washington state. This dashboard is intended to provide the public access to key metrics that may help inform policy and economic recovery initiatives. As this dashboard is still evolving, we may update the available views and data sources where possible. Updates are made on a monthly basis.
