

CYCLE OF PERSONAL OWNERSHIP

AUGUST 2023 WINNER

CHELAN COUNTY

MICHAEL WILSON

I would like to recognize Michael Wilson for his dedication and total ownership of the numerous security initiatives and tasks with getting the District prepared for the new Service Center.

Michael has been the primary representative from the Security Division during this project from day 1 and has contributed heavily with the design and layout of all the physical security measures that has no doubt increased the security profile for the Service Center to the next level.

Michael has worked long days over the last year and has worked countless hours through the weekends since March with planning efforts and doing a lot of tasks behind the scenes to make the move successful for departments. Some of these efforts were setting up stakeholder meetings with over a dozen departments to see what their anticipated needs are, access control levels, and discussing how they envision doing business with the goal in identifying potential impacts ahead of time. Additionally, Michael created the new Security Orientation materials, took on updating our department policies and has spearheaded the new badge project while doing his regular job.

Despite the high workload, Michael has coordinated and executed on all these initiatives flawlessly helping to ensure a higher level of workplace security for our employees at the Service Center.
