

# CYCLE OF PERSONAL OWNERSHIP

MAY 2022 WINNER

CHELAN COUNTY

# DANI FLAGET

I would like to recognize Dani Flaget for modeling the cycle of personal ownership with her self-initiative to update the reporting for the District's Performance Plan to make it a clearer communication tool for the Board, employees and customers. In addition, she also automated the process for calculating the status percentages to make the report more time-efficient and more accurate reflecting the value of Operational Excellence. Dani identified the opportunity for improvement and developed the solution herself and then sought out input from users to refine it even further. The report improvements can also be used by Business Units for their performance reporting. Thank you, Dani, for your proactive and innovative solution that will benefit many business planners throughout the District
