MAY 2019 WINNERS

CHELAN COUNTY

# WENBO JIA, MIKE LAWSON

Unit C8 at Rocky Reach experienced a shear pin failure and twisted wicket gate stem on or before April 26. Wenbo and Mike gathered and reviewed relevant data, conducted material strength analyses, and provided concise recommendations for restoring unit operation. All pertinent information was captured in a nicely formatted memo that was timely and easy to understand. I commend both Wenbo and Mike for their work.
