

CYCLE OF PERSONAL OWNERSHIP

OCTOBER 2023 WINNER

CHELAN COUNTY

KATE VON REIS BARON

As River Planner, Kate has the responsibility of managing complex river control programs, participant requests and real time allocation of generation and spill. She is integral in debugging the control programs as well as providing assistance and guidance for special operations required in our hydro facilities with a constant focus on continuous improvement. Kate is gifted in communicating with diverse groups and is an essential part of the Rock Island Operations team, where she combines her skills as a leader, partner and communicator, balancing the commitment to our customers with the operational constraints presented by our units and ability to effectively move water. I am fortunate to have such a trusted partner who offers different perspectives on operational capabilities and needs enhancing our ability to provide reliable power output and river control.
