**September 2018
Cycle of Personal Ownership**

Winners

Nominee	Details
<p>Randy Pauli and Angella Kirschner</p>	<p>Randy and Angella have worked very hard and effectively over the past 4 years to institute a cyber security awareness program at the District. Cyber awareness by all District employees is a critical step to enable the District to serve our customers in a timely and effective manner. An inadvertent "click" on an email by an employee could potentially introduce a serious cyber event resulting in system "downtime" or worse. Randy's and Angella's efforts have significantly reduced the probability that such an event may occur. The following illustrates the improvement of District employees in recognizing potential "problem" emails: Some historical numbers: Year Clicked % 2015 - 27.43; 2016 - 6.85; 2017 - 7.48 Year-to-date % statistics for 2018: YTD 2018 1.92</p>
