

CYCLE OF PERSONAL OWNERSHIP

APRIL 2021 WINNERS

CHELAN COUNTY

AMY SMITH

PricewaterhouseCoopers and Audit Committee members commended Amy on the advanced preparation, quality and leadership over the 2020 Financial Statement Audit. The entire audit was performed virtually/remotely this year and was completed on schedule with no findings. Great job Amy!

MINH DANG

Rock Island Dam has found itself in a position in which several projects need to be completed prior to the HCP Check-In period. One of these projects included the troubleshooting of vibration issues on unit B10. Headgate installation is required on B10 to troubleshoot B10.

To complicate matters, the District dive team is in quarantine due to COVID concerns and will not be available to assist with any leakage problems on the B10 headgates should problems arise.

On Tuesday, March 30, 2021, Minh Dang was assigned to fast track the process of putting a Contractual Service in place for contract diving. By Thursday afternoon, Minh had coordinated with all people involved in the contract review process and received a signed contract from the vendor.

I'm sure there are many others that displaced their current work and placed their focus on this agreement for contractual diving but a special thanks to Minh is deserved for keeping us all on task and in line.
