

CYCLE OF PERSONAL OWNERSHIP

FEBRUARY 2022 WINNERS

CHELAN COUNTY

DEBBIE LITCHFIELD

I would like to recognize Debbie Litchfield for modeling the cycle of personal ownership through her focus on enhancing records management and retention that are key for both succession planning and the future move to the new Service Center. Debbie standardized her record archiving process to ensure records are retrieval in the future and she reduced over 1,000 inches of hard copy documents for digital copies/recycling. For perspective, the amount of paper she reduced would equal a stack of paper about 6 stories high for an average office building! She also archived email from 2009-2015 to come into compliance with our 7-year email retention policy which was a multi-year effort to complete. Thank you, Debbie, for taking ownership, staying on track, and achieving the results to ensure your digital documentation is retrievable, your records meet retention policies and your hard copy files will fit into the new Service Center space.

KEVIN TONEY

There is not one event or day that stands out with Kevin Toney when it comes to supporting safety at Chelan PUD. Kevin consistently puts his employees' safety first in every decision he makes. He continuously supports the Safety team when it comes to process improvements and corrective actions on the Rock Island project. His Leadership with Safety is evident and the atmosphere that he has greatly contributed to at Rock Island is one of the most welcoming at the District.
