

CYCLE OF PERSONAL OWNERSHIP

JUNE 2020 WINNERS

CHELAN COUNTY

DANIEL MARTYN

Daniel Martyn brought a wealth of knowledge and experience to the District. He was able to recognize several large, complex issues that could lead to severe safety risks. Despite being a new employee, Daniel had the courage to take initiative to bring specific safety risk examples to the attention of the Senior Management Team.

His actions led to the Safety Team investigating his concerns, identifying changes that were needed, and tracking items to resolution. Most issues have been addressed and a few are in the final stages of wrapping up. We appreciate the courage Daniel showed as a newer employee to bring up these complex issues, which has resulted in tangible safety improvements.

RANDY PAULI, MEGAN BRANDENBURG, LORN CONNER, KELLIN SPADE & TIM O'BRIEN

The Pandemic has increased the outside threats to the District and also the focus of the security team. The team has been extremely diligent in examining the threat landscape and have stopped many legitimate threats before they have caused major harm. The team has also provided the District with timely communications of threats and education based on real world examples. This type of work is ongoing and mostly behind the scene so I feel that it is very important to recognize their efforts.
