

CRYPTOCURRENCY DISCUSSION

Lindsey Mohns

Business Manager
Customer Utilities

An aerial photograph of a mountain town. In the foreground, there are several buildings, including a large hotel or resort with a red roof and a parking lot. The town is surrounded by dense green forests. In the background, a large, rugged mountain with some snow-capped peaks rises above the town. The sky is clear and blue.

Rate Classification

Original definition - 250 KWh/sq. ft.

Revising definition - Connection to
volatile commodity price

An aerial photograph of a large dam and reservoir. The dam is a long concrete structure with multiple spillways, and water is cascading over it, creating white rapids. The reservoir is a large body of water with some small islands. In the background, there are rolling hills and mountains under a sunset sky with orange and yellow clouds. A blue rectangular box is overlaid on the left side of the image, containing white text.

How To Serve It

Energy

- » From existing inventory
 - how much / how long
- » Market purchase
 - retail vs. wholesale load
- » Build generation

Transmission

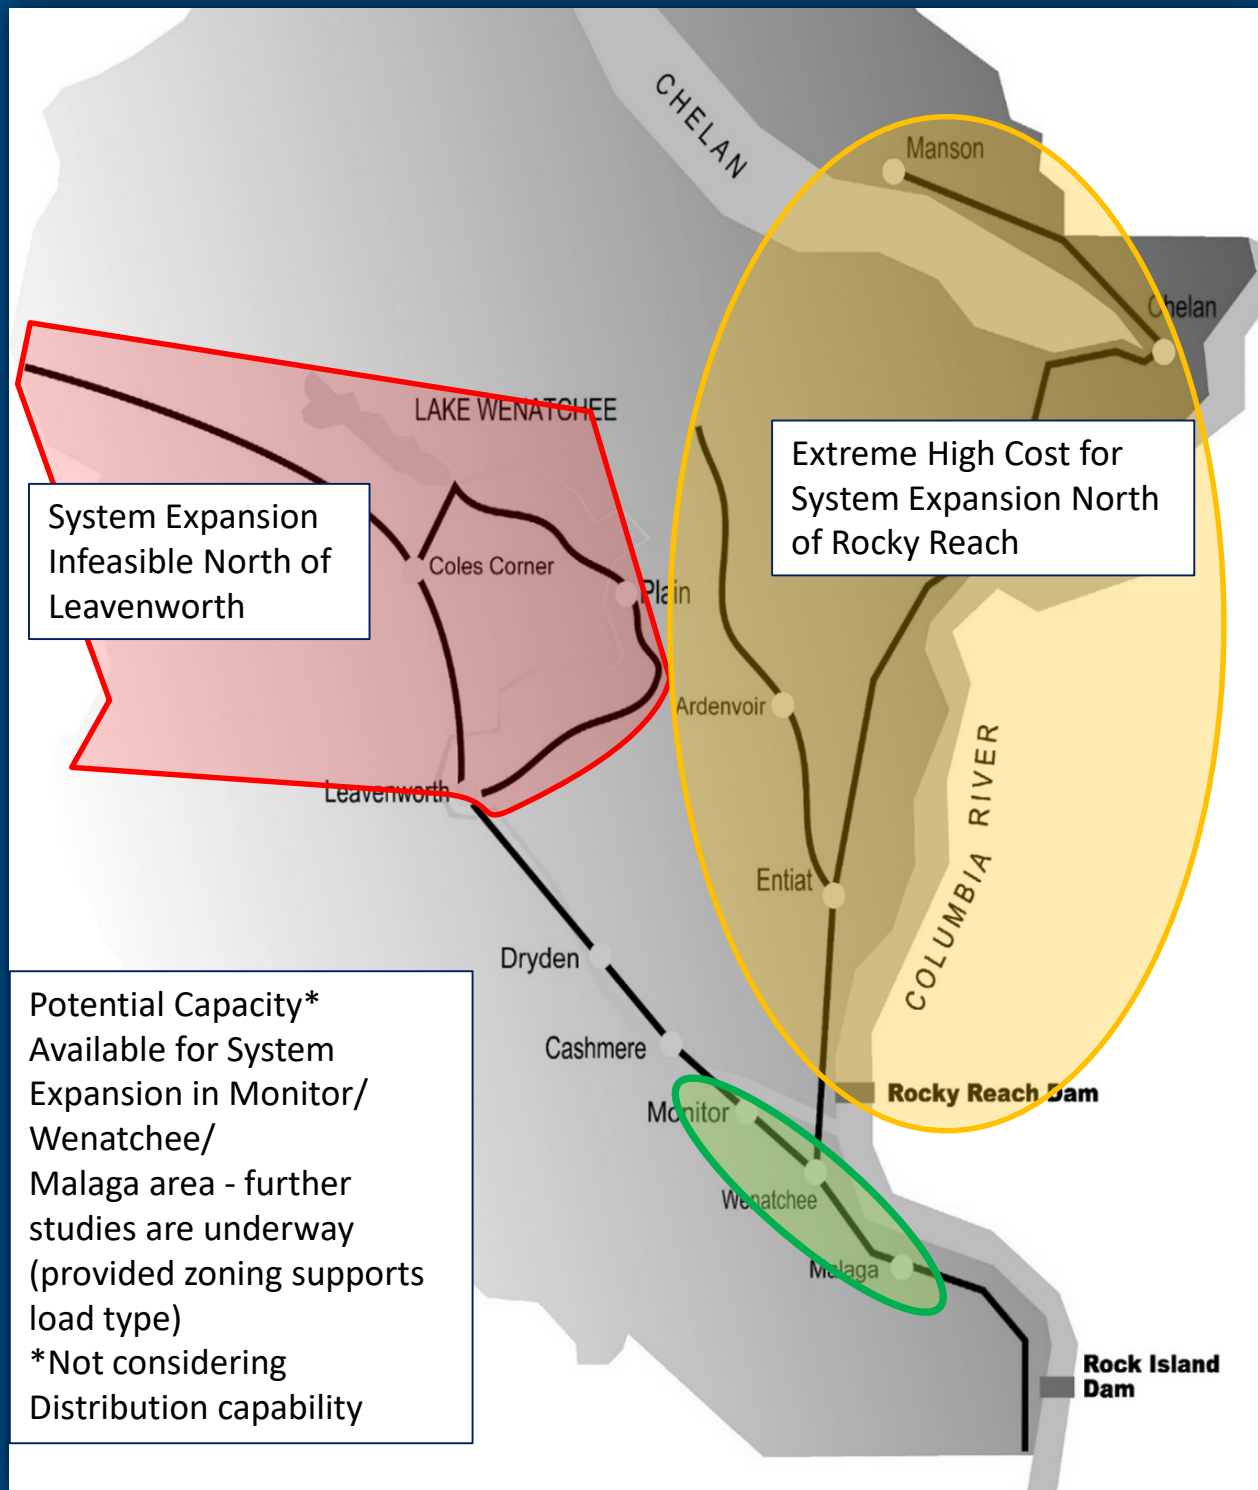

Capacity

- » Exclusion zones
- » Extreme cost zones

Timing

- » Difficult to meet expectations

Pricing

Distribution

Capacity

- » Build zones
- » Organic load reservation
- » Substation capacity \neq single location capability

Timing

- » Difficult to meet expectations

Pricing

Community Impacts / Reactions

- » Rate impacts for existing Customer-Owners
- » Impact on existing growth plans
- » Safety
- » New zoning requirements
- » Environmental impacts – Generation, Transmission, Distribution
- » Moral – value of cryptocurrency mining
