Phone: 509-663-5870

Message from: Marylou Wadkins

Mr. Wendell, this is Marylou Wadkins calling. I left a message previously and you did respond and left a message for me.

I read this article in the morning paper about the moratorium on the power rate for the bitcoin miners, and I just wanted to repeat my feeling that I don't think that what they bring in to this town for jobs does not justify them receiving an advantageous rate and I think they should be charged more.

Thank you for letting me say my peace. If you want to call me back my phone number is 663-5870.
