more.

FORMATION

together.

Boldy act on opportunities that can benefit Chelan County residents in the long run.

#### COMMUNITY POWER

Keep the public informed and involved by sharing details and collaborating with them.

#### PARTNERS IN SUCCESS

Strengthen partnerships with governments, community organizations, and others to support a high quality of life.

# Build a strong Workforce where we help each other succeed

Sent to over 20,000 building owners and operators on May 7th

MAY 8, 2025

## **Clean Buildings Bulletin**

From left: Charley Haupt, president of New Energy Technology; intern Sloane Eppich Talbott; intern Isabella Garcia; Annalyn Bergin, CBPS programming lead at the Washington Department of Commerce; and interns Marisol Nava and Stephanie Salgado.

"Workforce development in the energy efficiency industry is not just about filling jobs- it's about cultivating the next generation of innovators.

AEM interns are the bridge between education and real-world impact, equipping them with the skills and experience to drive sustainable change".

## Build a strong Workforce where we help each other succeed

Clean Buildings Bulletin: Meet the Wenatchee High School AEM champions

Washington State Department of Commerce sent this bulletin at 05/07/2025 01:00 PM PDT

MAY 8, 2025

### Meet the Wenatchee High School AEM champions

We're excited to introduce sophomores from Wenatchee High School's Advanced Energy Management (AEM) internship program: Sloane Eppich Talbott, Isabella Garcia, Marisol Nava and Stephanie Salgado. This paid internship is a collaboration between Chelan County public utility district (PUD), JCPenney, Wenatchee School District, North Central Education Service District 171, and North Central Washington libraries that provide students with real-world hands-on experience as part of a professional energy management team.

The Wenatchee community workforce development program is being designed for replication across Washington state. For clients like JCPenney and their own school district, students monitor real-time electricity use and demand, benchmark performance with ENERGY STAR's Portfolio Manager, identify energy waste, open energy work order tickets, and engage with building occupants to actively participate in energy savings solutions.

The AEM internship equips students with valuable skills in teamwork, data analytics, project management, troubleshooting, and client engagement, preparing them for their future careers in whatever path they choose, which hopefully includes energy efficiency and sustainability.

Thank You Chelan County PUD and Jim White

# Our CAN DO is...

We are the new Workforce being developed by helping buildings achieve CBPS compliance.

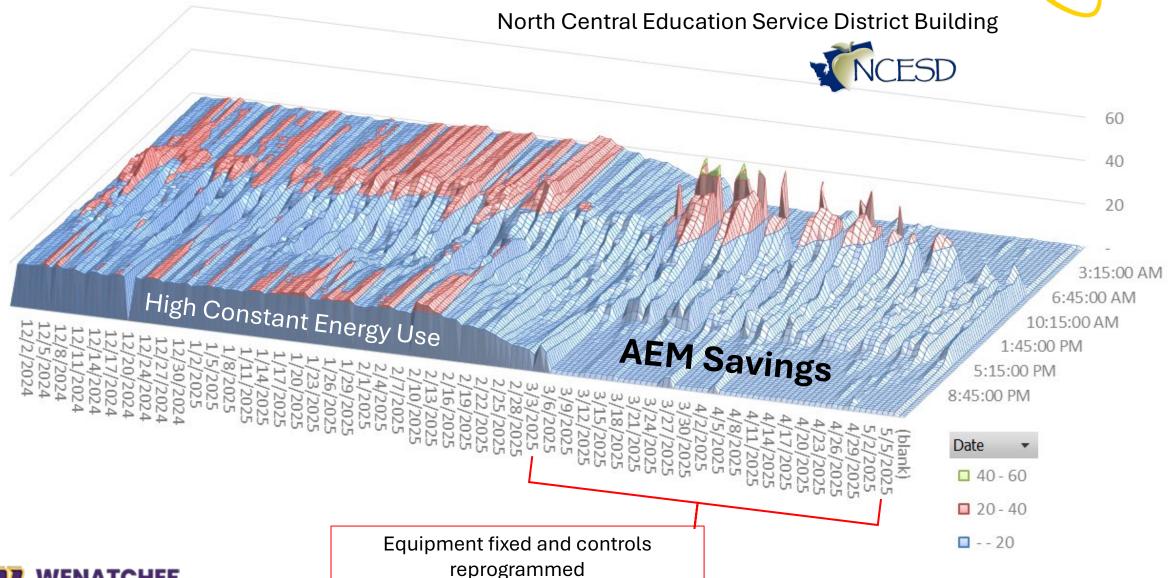

Noncompliance fine for our high school is \$433,000 and due June 2026

# Build a strong Workforce where we help each other succeed

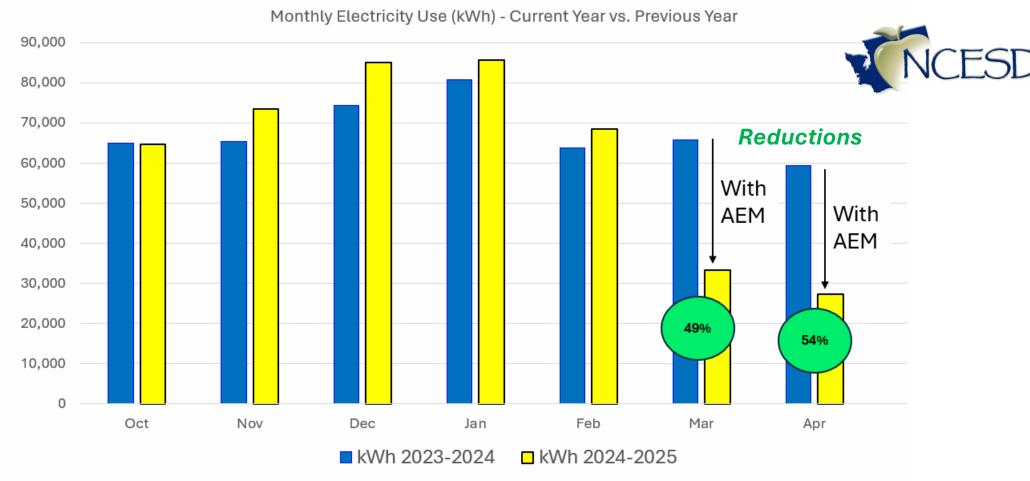

# Build a strong Workforce where we help each other succeed

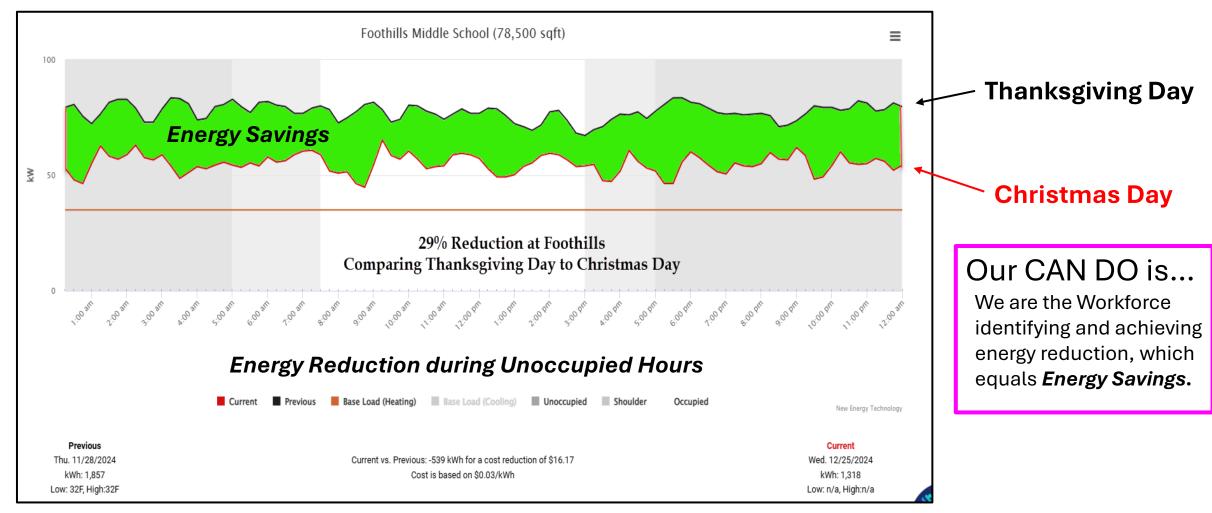

**Again** - Thank You Chelan County PUD for new AMI metering system and Jim White's support in helping *us do our Job*.

## Build a strong Workforce where we help each other succeed

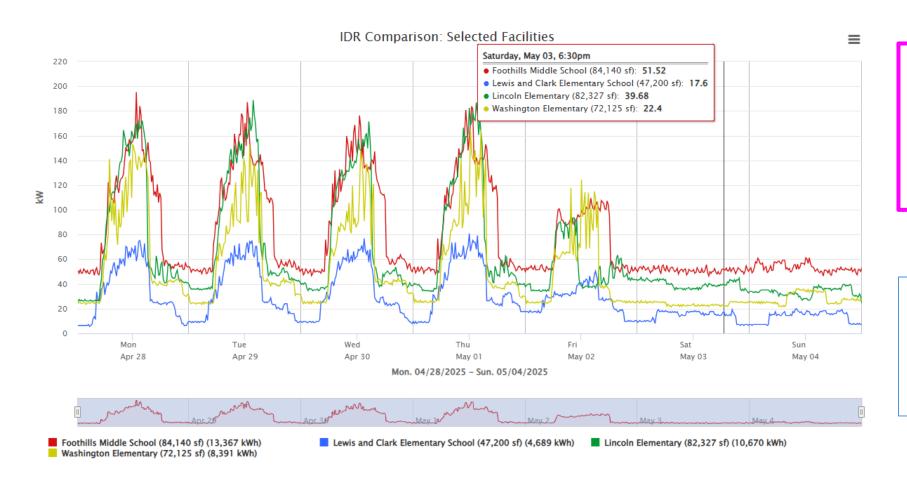

## Build a strong Workforce where we help each other succeed

# Our CAN DO is...

We are the Workforce monitoring our entire school district's buildings to better manage energy.

### **Thank You Chelan County PUD**

for your new AMI metering system that provides this essential load profile data **we need to do our Job**.

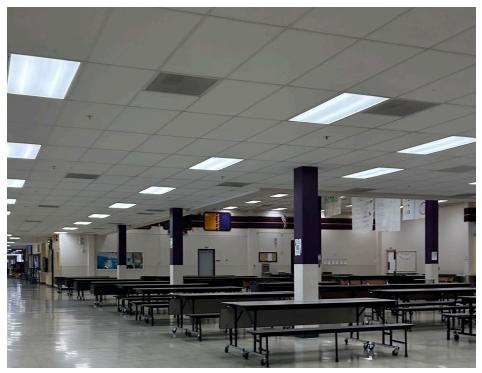

## Build a strong Workforce where we help each other succeed

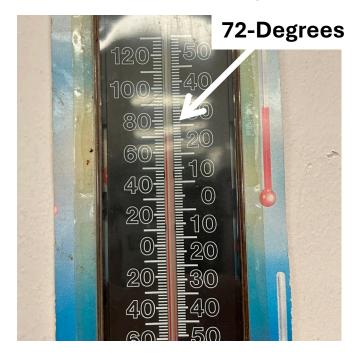

AEM Champions and Jim White conducted the WHS Treasure Hunt during Spring Break

Cafeteria has big windows that lets natural light in, but all lights on during Unoccupied Hours and unnecessary. In addition, the temperature in the room was 72-degrees, which means the HVAC heated the room when it was also unnecessary.

Build a strong Workforce where we help each other succeed

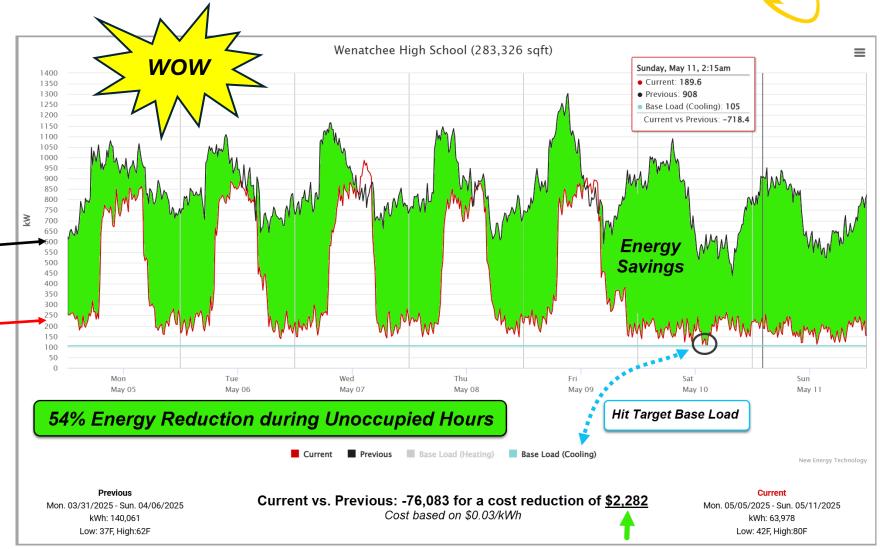

Previous – Week of March 31<sup>st</sup>

Prior to Spring Break

Current – Week of May 5th

# Our CAN DO is...

We are the Workforce engaging building Occupants and Operators to grow an energy conservation culture.

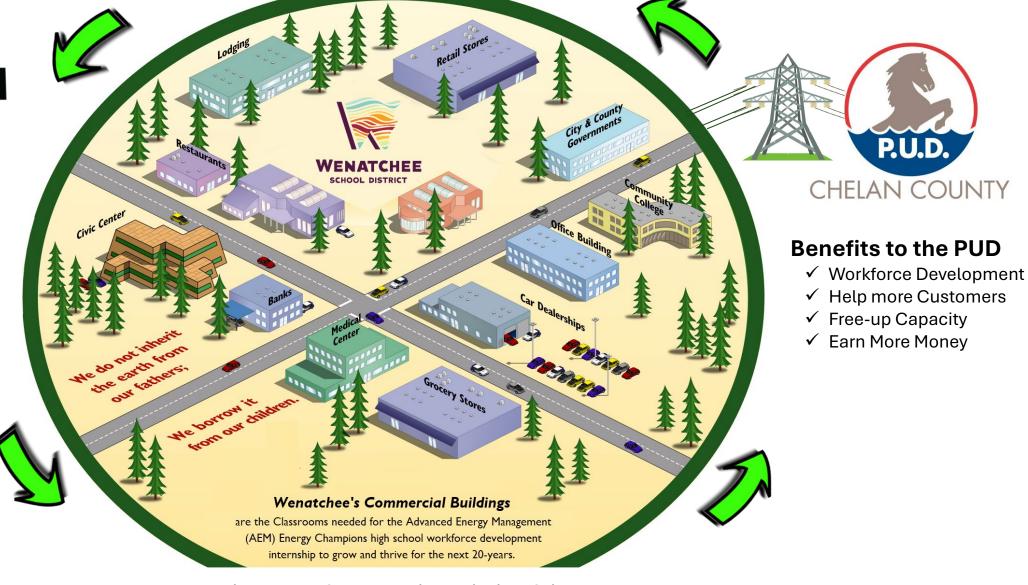

**Again** - Thank You Chelan County PUD for new AMI metering system and the data it provides **us to do our Job**.

### **Benefits to Us**

- ✓ Real World Job
- ✓ Future Prep
- ✓ Make Money
- ✓ Help People

### **Benefits to our Commercial Building Clients**

- ✓ Immediate and sustainable energy cost savings
- Government compliance to avoid large fines
- ✓ Improved building working environment for occupants
