Re: Lake Chelan Hydroelectric Project No. 637 (Project)
Appendix D 401 Water Quality Certification Condition V.C.i)
Water Temperature Data Reports: 2nd Quarter 2022

Dear Ecology Water Quality Program, Chelan River Fishery Forum, and Other Parties:

Water temperature monitoring data for the 2nd Quarter 2022 are provided in the attached files. This information will be posted to the Chelan County PUD external website under “River Flows, Water Temperatures and Total Dissolved Gas” (link below).

<https://www.chelanpud.org/parks-and-recreation/river-flows-and-water-temperatures>

Data during times of maintenance, calibration, or other miscellaneous events have been denoted with “NA” to designate these periods when data was either unavailable or inaccurate. Noteworthy events are explained below.

- There were several hourly data points removed from the Tailrace logger data column due to erroneous data between April 24 and May 1. These points had an average difference of 3.8°C from the adjacent tailrace temperature data. This logger will be taken out of rotation and replaced with a new logger.
- There was one hour of data missing for each of the loggers on April 13 that occurred during the swapping of equipment.

Please feel free to call or email any questions or comments.
