Subject: <External> High load customers such as bitcoin users

Chelan County PUD IT Warning:
Please use caution! This is an external email with links or attachments.

I am strongly agree with the PUD moratorium for high density load customers. I also feel a higher power rate should be applied to them. The reason for this is because these high rate power consumers do not invest in our community nearly the same that a manufacturing business would or even a residential customer. I also feel this use of power does not agree with the mission of the PUD "To provide sustainable, reliable utility services that enhance the quality of life in Chelan County."
