# Home Improvement Incentives

Chelan County PUD offers incentives to customers for energy efficiency improvements. Offers apply to owners of existing, site-built single-family and multi-family homes (up to 10 units) and manufactured homes situated in Chelan County and using permanently installed electric heat. Eligible households include those using electric heat pumps, furnaces, baseboard, wall or radiant heat. Plug-in type space heaters do not qualify. New construction is not eligible. Request for incentive must be submitted within 6 months of job completion. Incentives apply to conditioned living space (no garages). Payment is by check mailed to the customer. **Allow 6 to 8 weeks for processing.**

## WINDOWS

Replacement windows must have a U-factor of 0.30 or lower (the lower the U-factor, the more efficient the windows). Windows must be rated by the National Fenestration Rating Council (NFRC).]

Patio doors follow the same guidelines as windows, but must have a U factor of only .35 or lower.

Customers replacing single-pane windows must show proof that those windows were in the home prior to new windows being

installed. This can be as simple as taking a few photos of your old windows and submitting them with your rebate application.

**PUD staff will inspect the home to validate heat type prior to payment.**
