Subject: No to Smart Meters

Dear Respected Commisioner,

I would like you to know that I feel strongly about my health and the health of the planet. We are only small here in Chelan County, but to make a statement to keep our beautiful natural Lake Chelan as free of the harmful frequencies could be huge. People come here to relax. They feel different here. There is oppotunity for a deep relaxation that is not available in the cities.....which are overwhelmed with technology and EMF's.

We sell items at Spirals to assist in protecting our bodies from these frequencies, but how amazing is it to still have the opportunity to keep our space more clear! \Please vote NO on allowing more smart meters in our pristine valley. Thank you for considering all the information that has been sent to you by other individuals that report of the harm caused to health by the frequencies emitted by Smart technologies. Thank you for considering the possibility to **be a leader in maintaining clear space as a priority for humanity.**

Sincerely,
BeverLi Joi
