Subject: Leavenworth - Advanced Meter Presentation

I attended your PUD presentation on "advanced meters" here in Leavenworth tonight. I thought the presentation by John, Andy and crew has excellent. They took their time and answered every question raised in a thoughtful and pleasant way and accepted both pro and con input in a respectful manner.

I do want to express my support for the PUD moving forward with the implementation of advanced meters. It seems the technology has matured and I believe the new meters would be well received in our area.
