

You're invited

Chelan County PUD commissioners will hold a hearing at 2 p.m. on Nov. 19, 2007, in the boardroom at 327 N. Wenatchee Ave., to consider adopting proposed standards for:

- Fuel source diversity
- Fossil fuel generation efficiency

The federal Public Utility Regulatory Policies Act and the Energy Policy Act of 2005 require electric utilities to consider these standards and to adopt, or not adopt, them as appropriate. Chelan PUD issued a request for public comment on October 19, 2007. For details, visit www.chelanpud.org and click on "Customer Services" and then on "PURPA."

If you plan to take part in the hearing, please notify Carol Wardell, presiding officer, at 661-4316 by Nov. 9, 2007.
