

**HEARING NOTICE of the COMMISSION of PUBLIC UTILITY DISTRICT NO. 1 of CHELAN COUNTY REGARDING FUEL SOURCE DIVERSITY AND FOSSIL FUEL GENERATION EFFICIENCY STANDARDS PROPOSED for CONSIDERATION UNDER THE PUBLIC UTILITY REGULATORY POLICIES ACT**

**TO INTERESTED PERSONS**

The Board of Commissioners of the Chelan County PUD (Commission) will hold a public hearing on November 19, 2007 at 2:00 pm to consider whether it is appropriate to adopt, in whole or in part, or not adopt certain standards proposed under the Public Utility Regulatory Policies Act (PURPA). Per this notice, the Commission invites public participation in the hearing, which will be held in the PUD Boardroom at 327 N. Wenatchee Avenue. To participate as a party, any person or entity should file a petition to intervene after notifying the hearings officer, Carol Wardell, no later than November 9, 2007 at 661-4316.

**BACKGROUND**

On August 5, 2007, the Commission publicly noticed that it would begin consideration of a standard to govern the fuel source diversity of electric energy the District sells to consumers. The District also gave notice that it intended to not adopt, due to its inapplicability to the District, a standard to develop and implement a 10-year plan to increase the efficiency of fossil fuel generation. The notice of consideration was published by August 8, 2007 in accordance with the Public Utility Regulatory Policies Act of 1978 as amended by the Energy Policy Act of 2005. Pursuant to that notice, the Commission explained that it would hold a public hearing after the conclusion of a written comment period, which closes November 7, 2007.

The Commission has established a public website with information about PURPA and the standards being considered. The site also includes useful documents such as a power point of a July 30, 2007 staff presentation to the Commission and links to previous legal notices published on this topic. Visit [www.chelanpud.org/PURPA.html](http://www.chelanpud.org/PURPA.html).

**PETITIONS TO INTERVENE**

Petitions to intervene shall be in writing, include contact information, and identify the parties to the petition and their interest in the proceeding. The intervention shall state the position of the parties with respect to the adoption of a standard and summarize the party's testimony. Petitions to intervene should be submitted to Public Utility District No. 1 of Chelan County, c/o Carol Wardell at P.O. Box 1231 Wenatchee, WA, 98807-1231.
