Subject: 2025 Chelan River Flow Monitoring - 2nd Quarter Reports
Attachments: 2025 Daily Average Flow Data 2nd Quarterly Report.pdf; 2025 Hourly Flow Data 2nd Quarterly Report.pdf

Categories: .

Chelan River Fishery Forum Members & Participants,

In accordance with Lake Chelan Hydroelectric Project No. 637 (Project) License Article 405a you will find attached the Hourly and Daily Average Flow Data for the 2nd Quarter of 2025. These reports contain data for surface elevations at the Chelan Dam Forebay and Powerhouse Tailrace, and flows from the Powerhouse, Low Level Outlet (LLO), Spillway, Pump Station, and Total Reach 4 flows.

This information will be posted to the Chelan County PUD external website under “River Flows, Water Temperatures and Total Dissolved Gas” (link below).

<https://www.chelanpud.org/parks-and-recreation/river-flows-and-water-temperatures>

Data during times of maintenance or calibration events have been denoted with “NA” to designate these periods when data was either unavailable or inaccurate. Noteworthy events are explained below.

- There was one hourly flow reading for Reach 4 on April 25th that fell below the required 260cfs minimum flows. This was caused by a reset of the airburst system which caused the Reach 4 pumps to shut down. This event was filed with FERC and communicated to the CRFF in emails on April 25, 2025 and May 19, 2025.

Please feel free to call or email any questions or concerns.

Scott Hopkins

Senior Fisheries Biologist
Chelan County P.U.D.
