Dear Chelan County PUD

Commissioners: Ann, Randy, Gary, Dennis and Steve

Thank you for taking the time to read this email.

The installation of utility smart meter or any meter that transmits microwave radiation on the property of 200 Clinton Street in Leavenworth WA is refused and prohibited.

They are by definition surveillance devices. Those with access to the smart meter database can review a permanent history of household activities. This is invasive to the lives of the occupants.

Electromagnetic and RF energy contamination from SM exceeds allowable safe and healthful limits for domestic environments as determined by the EPA and other scientific programs.

My hope is that you reconsider installing these and just leave the analog meters which are working just fine and don't produce dirty electricity.

Thank you and have a great day!

Kim & Joe Vasta
200 Clinton Street
Leavenworth WA
